COURTESY LIST OF CERTIFIED BACKFLOW PREVENTION DEVICE TESTERS

Individuals who test backflow prevention devices within the incorporated boundaries of the City of Manassas must have completed a course approved by the Department of Professional and Occupational Regulation, Commonwealth of Virginia. In addition, each must register with the City of Manassas and provide a copy of their Virginia certificate for record.

The list below includes the names of businesses that have a specific employee(s), whose certification has been verified. Each has registered with the City of Manassas and is authorized to perform work as indicated. You must verify with tester that their certificates/license are current and have not lapsed after the posting of this list.

The list below is provided as a courtesy, for your convenience. The City of Manassas does not approve or recommend commercial contractors. In no event shall the City of Manassas be responsible for any costs incurred, loss, or damage in connection with or arising out of a customer's employer of, arrangement with, or work performance of any individual, contractor, or business entity.
